Dialectical Behavior Therapy (DBT) Program

DBT Consultation Team Meeting - Minutes

Fillable blank template for adaptation into agency records, structured to match the required elements of a DBT-adherent consultation team meeting. Fields marked (F) correspond directly to scored items on the DBT program fidelity assessment (Consultation Team Meeting section).

Date: **Meeting # / Week of:**

Start Time: **End Time:**

Format: **Location (if in person):**

Format: enter In Person, Virtual, or Hybrid above. A regular, weekly consultation team meeting is a required element of DBT program fidelity.

1. Roles for This Meeting (F)

(Fidelity: Consultation Team Meeting - role planning & rotation)

Fidelity requires that roles are planned in advance and rotate across members over time, rather than being held permanently by one person.

Role	Assigned To (this meeting)
Team Leader	
Meeting Leader	
Mindfulness Leader	
Minutes	
Observer	

2. Attendance (F)

(Fidelity: Consultation Team Meeting - attendance tracking)

Present (names)	Absent (names)

Late arrival(s) - name & time joined:

Early departure(s) - name & time left:

Ongoing attendance was recorded for team:

Yes No

No one is in danger of falling out of DBT for non-attendance of team:

Yes No - see note below

If a late arrival/early departure created a contingency (e.g., missed safety review, reassigned role), or a member's non-attendance is a concern, describe here:

3. Meeting Occurrence (F)

(Fidelity: Consultation Team Meeting - cancellation/attendance tracking)

This meeting was held as scheduled:

Yes No - cancelled/rescheduled, reason & plan below

If cancelled or rescheduled: reason, and plan for make-up or coverage of team functions until the next meeting:

4. Agenda & Time Tracking (F)

(Fidelity: schedule/time-tracking adherence, therapist-focus balance, admin cap)

Record actual time used alongside the planned allotment. Under Teaching/Consultation, check whether time was used for case consultation (therapy for the therapist) versus DBT skills/didactic training, per fidelity - the team's primary function is therapy for the therapist.

Topic	Planned	Actual	Discussion / Notes
Mindfulness Practice	15 min		
Fundamentals of Team / Consult Team Agreements	5 min		
Repairs	5 min		
Chain / Diary Card Review	10 min		

Teaching / Consultation	60 min		Case consultation (therapy for the therapist) DBT skills or didactic training (not case-focused)
Administrative Issues	10 min		
Observer Comments	5 min		
Next Meeting	5 min		

Administrative Issues discussion was kept to 15 minutes or less:

Yes No

5. Observer Comments (detail)

Observer's feedback on team process / adherence to DBT consultation team agreements this meeting:

6. Next Meeting Planning

Meeting roles clarified for next meeting:

Yes No

Minutes Recorded By

Minutes-Taker Signature / Name:

Date Minutes Completed:

Retain completed minutes per agency record-retention policy; minutes should be sufficiently detailed for a fidelity reviewer to evaluate whether the required elements of a DBT consultation team meeting occurred.

Appendix A: Fidelity Crosswalk

Reference page for clinical directors, trainers, and fidelity reviewers - remove before this form is finalized as a working document. Shows how each field above documents a specific item scored on the agency's DBT program fidelity assessment (Consultation Team Meeting section).

Note Field	Corresponding Fidelity Scale Item
Header block - Date, Start/End Time, Format	Consultation Team Meeting criteria: the team meets on a regular, weekly basis; time-tracking supports review of schedule and time adherence.
Section 1 - Roles for This Meeting (Team Leader, Meeting Leader, Mindfulness Leader, Minutes, Observer)	Scoring item: role planning and whether roles are followed and rotated across team members, rather than held permanently by one person.
Section 2 - Attendance (Present/Absent, ongoing attendance recorded, non-attendance risk, late arrival/early departure)	Scoring items: attendance is tracked on an ongoing basis; late arrivals and early departures and any resulting contingencies (e.g., missed elements) are documented; whether attendance concerns rise to the level of affecting a member's standing on the DBT team.
Section 3 - Meeting Occurrence (held as scheduled Yes/No, cancellation reason)	Scoring item: whether cancellations and attendance are tracked; the fidelity standard that the DBT consultation team is never simply cancelled or called off, with coverage/make-up planned when a meeting cannot occur as scheduled.
Section 4 - Agenda & Time Tracking table (Planned vs. Actual)	Scoring item: adherence to the team's own agenda structure and time allotments - whether the schedule was followed and time use tracked.
Section 4 - Teaching/Consultation checkboxes (Case Consultation vs. DBT Training)	Scoring item: balance between therapy-for-the-therapist (case consultation) and use of team time for DBT skills/didactic training, and whether case-focused consultation is prioritized as the team's core function.
Section 4 - Administrative Issues time cap checkbox	Scoring item: administrative issues are limited to no more than 15 minutes of team time, so they do not crowd out the team's clinical/therapy-for-the-therapist function.
Section 5 - Observer Comments	Consultation Team Meeting structure requires a rotating Observer role whose feedback on team process is documented in the minutes.
Section 6 - Next Meeting Planning (Meeting roles clarified for next meeting - Yes/No)	Scoring item: role planning - roles for the upcoming meeting are identified and planned ahead of time, supporting rotation over time.
Signature block - Minutes Recorded By / retention note	Scoring item: minutes are adequate in detail and are retained, so a fidelity reviewer can evaluate whether required elements of the consultation team meeting occurred.

Scoring context (from the fidelity assessment's Score Summary):

The Consultation Team Meeting domain, like each other domain, is rated 1-5. Missing individual elements (e.g., roles not documented, no time tracking) can move a domain from a 5 toward a 2-4; a pattern of concerns - such as the team being cancelled without a coverage plan, or attendance not being consistently tracked - drives a score of 1.

Program-level bands: 62-70+ = good implementation | 52-61 = fair implementation | 51 and below = not evidence-based practice.
